Gentlemen

The Department of Energy (DOE) Rocky Flats Environmental Technology Site would like to schedule a meeting on Wednesday January 12 1995 with the Environmental Protection Agency (EPA) and the Colorado Department of Public Health and Environment to discuss the recent request for a Proposed Action Memorandum (PAM) on the contamination encountered in Individual Hazardous Substance Site No 110. This meeting would be to discuss possible removal action alternatives and potential road blocks.

Upon developing an appropriate removal action alternative in consultation with the agencies DOE will develop a written proposal for the removal action. The DOE intends to submit a proposal to the EPA by February 1 1995 followed by the submittal of a draft PAM by March 1 1995. If you have any questions regarding this matter please contact me ina Sarter at 966 7252 or Scott Grace at 966 7199

Sincerely

Steven W. Staten
